S.M.A.R.T. review details: Is it worth playing? Absolutely, not only is this game a fun experience, but it makes you appreciate certain aspects of the Star Wars franchise. The RTS element of the game combines well with the RPG element in that you create your character, your own story and is involved in an exciting and captivating narrative. Another positive point is that once you get to a certain level in the game, you can create your own group of Jedi, you can gather new and exciting allies like the Wookiee, Chewbacca, Yoda and more to assist you. I really enjoyed this game and think that it's a solid purchase, especially at its Early Access price. The developers are aware of the mistakes they made in the beta and have responded in a timely fashion
